

Call for papers

ENERGY FINANCE ITALIA 9

February 12-14, 2024

The **Energy Finance Italia 9 Conference** puts together researchers and practitioners working in all areas of *Energy Finance*, *Energy Economics* and *Climate Change* and in related fields in economics, finance, engineering, data science and mathematics.

Participants are encouraged to submit their papers or proposals of organized sessions on a wide range of theoretical and applied topics in these research fields, such as (but not limited to):

Energy and climate data science, Energy forecasting, Energy innovations, Energy markets, Energy analytics, Energy mix and carbon emission trading, Green finance & financing energy infrastructure, Climate policy and risk, Climate change & market efficiency, Climate change & pricing uncertainty, Regulation and regulatory risk, Renewable sources, Risk measurement and management, Storage devices.

Energy Finance track

Stefano Dell'Atti-Andrea Paltrinieri track chairs

The objectives of the Energy Finance track belonging to the *Energy Finance Italia 9 Conference* include the exploration of the relationship between financial institutions, non-financial firms, energy markets, financial markets and climate risk indicators. Participants are encouraged to submit theoretical, empirical, literature review papers in the following areas:

- Connectedness between energy prices and banks risk/returns
- Natural gas futures and financial markets shocks
- Co-movements among energy futures
- Energy prices and financial markets behavior
- Natural gas prices and bank risks
- Energy prices and systemic risk
- Natural gas, oil prices and non-financial firms behavior
- Climate risk indicators and bank stability
- Climate risk uncertainty and bank lending
- Climate risk uncertainty and non-financial firms behavior

Keynote speaker: [Rüdiger Kiesel](#), University of Duisburg/Essen.
